

sufficient. If the Panel determines that the research institution does not have sufficient policies and procedures in place to conduct inquiry, investigation, and adjudication proceedings, or that the research institution is in any way unfit or unprepared to handle the inquiry, investigation, and adjudication in a prompt, unbiased, fair, and independent manner, the ARIO will inform the research institution in writing of the Panel's decision. An appropriate USDA agency, as determined by the Panel, will then conduct the inquiry, investigation, and adjudication of research misconduct in accordance with this part. If an allegation of research misconduct is made regarding extramural research conducted at a Federal research institution (whether USDA or not), it is presumed that the Federal research institution has research misconduct procedures consistent with the OSTP Policy. USDA reserves the right to convene the Panel to assess the sufficiency of a Federal agency's research misconduct procedures, should there be any question whether the agency's procedures will ensure a fair, unbiased, equitable, and independent inquiry, investigation, and adjudication process.

§ 422.5 Reservation of right to conduct subsequent inquiry, investigation, and adjudication.

(a) USDA reserves the right to conduct its own inquiry, investigation, and adjudication into allegations of research misconduct at a research institution conducting extramural research subsequent to the proceedings of the research institution related to the same allegation. This may be necessary if the USDA RIO or ARIO believes, in his or her sound discretion, that despite the Panel's finding that the research institution in question had appropriate and OSTP-compliant research misconduct procedures in place, the research institution conducting the extramural research at issue:

- (1) Did not adhere to its own research misconduct procedures;
- (2) Did not conduct research misconduct proceedings in a fair, unbiased, or independent manner; or
- (3) Has not completed research misconduct inquiry, investigation, or adjudication in a timely manner.

(b) Additionally, USDA reserves the right to conduct its own inquiry, investigation, and adjudication into allegations of research misconduct at a research institution conducting extramural research subsequent to the proceedings of the research institution related to the same allegation for any other reason that the USDA RIO or ARIO considers it appropriate to conduct research misconduct proceedings in lieu of the research institution's conducting the extramural research at issue. This right is subject to paragraph (c) of this section.

(c) In cases where the USDA RIO or ARIO believes it is necessary for USDA to conduct its own inquiry, investigation, and adjudication subsequent to the proceedings of the research institution related to the same allegation, the USDA RIO or ARIO shall reconvene the Panel, which will determine whether it is appropriate for the relevant USDA agency to conduct the research misconduct proceedings related to the allegation(s) of research misconduct. If the Panel determines that it is appropriate for a USDA agency to conduct the proceedings, the ARIO will immediately notify the research institution in question. The research institution must then promptly provide the relevant USDA agency with documentation of the research misconduct proceedings the research institution has conducted to that point, and the USDA agency will conduct research misconduct proceedings in accordance with the Agency research misconduct procedures.

§ 422.6 Notification of USDA of allegations of research misconduct.

(a) Research institutions that conduct USDA-funded extramural research must promptly notify OIG and the USDA RIO of all allegations of research misconduct involving USDA funds when the institution inquiry into the allegation warrants the institution moving on to an investigation.

(b) Individuals at research institutions who suspect research misconduct at the institution should report allegations in accordance with the institution's research misconduct policies and procedures. Anyone else who suspects
