

Department of Defense

§ 1122.115

national policy requirements for inclusion in the general terms and conditions of grants and cooperative agreements.

(b) Standard wording for national policy requirements that are more commonly applicable to DoD Components' grants and cooperative agreements.

§ 1122.105 Where to find the terms and conditions.

(a) Appendices A through D of this part provide standard wording of terms

and conditions for the four articles of national policy requirements. The articles address the rights and responsibilities of the Government and the recipient related to those national policy requirements.

(b) The following table shows which national policy terms and conditions may be found in each appendix to this part:

In . . .	You will find terms and conditions specifying recipients' rights and responsibilities related to . . .	That would appear in an award within NP Article . . .
Appendix A	Non-discrimination national policy requirements	I.
Appendix B	Environmental national policy requirements	II.
Appendix C	National policy requirements concerning live organisms	III.
Appendix D	Other national policy requirements	IV.

§ 1122.110 Organization of each article of national policy requirements.

Each of NP Articles I through IV includes two sections.

(a) Section A of each article includes national policy requirements that are cross-cutting in that their applicability extends to many or all DoD awards. Appendices A through D to this part provide standard wording for each of those requirements.

(b) Section B of each article is the location in the award for program-specific national policy requirements. Section B is reserved in the standard wording of the articles provided in appendices A through D to this part.

§ 1122.115 Cross-cutting national policy requirements.

(a) *General requirement to include applicable cross-cutting requirements.* A DoD Component's general terms and conditions must include the standard wording provided in appendices A through D to this part for each national policy requirement addressed in Section A of NP Articles I, II, III, and IV, respectively, that may apply either to:

(1) A recipient of an award using those general terms and conditions; or

(2) A subrecipient of a subaward under an award using those general terms and conditions.

(b) *Authority to reserve or omit inapplicable paragraphs.* A DoD Component may reserve or omit any paragraph appendices A through D to this part provide for Section A of NP Articles I, II, III, and IV of its general terms and conditions if it determines that the national policy requirement addressed in that paragraph will not apply to any awards using those terms and conditions nor to any subawards under them.

(c) *Authority to use alternate wording.* (1) A DoD Component may use different wording for a national policy requirement than is provided in appendices A through D to this part if it is authorized or required to do so by a statute or a regulation published in the Code of Federal Regulations after opportunity for public comment.

(2) A DoD Component in that case:

(i) Must include the wording required by the statute or regulation in Section B of the appropriate article. This will help a recipient recognize the wording as a variation of the usual DoD wording for the requirement.

(ii) May either reserve the paragraph of Section A of the article in which that national policy requirement otherwise would appear or insert in that paragraph wording to refer the recipient to the paragraph in Section B of the article in which the requirement does appear.

§ 1122.120

§ 1122.120 Other national policy requirements.

If a DoD Component determines that awards using its general terms and conditions, or subawards under them, are subject to a national policy requirement that is not addressed in the standard wording appendices A through D to this part provide for cross-cutting requirements, the DoD Component must include the requirement in its general terms and conditions. It should add the requirement in Section B of NP Article I, II, III, or IV, as most appropriate to the subject matter of the requirement.
